

ensure that their activities are consistent to the maximum extent practicable with the enforceable, mandatory policies of the management program. However, Federal agencies need only give adequate consideration to management program provisions which are in the nature of recommendations. Finally, Federal agencies do not have to evaluate coastal zone effects for which the management program does not contain mandatory or recommended policies because, in the absence of such provisions, there is no basis for making a consistency determination with respect to such effects.

(d) When Federal agency standards are more restrictive than standards or requirements contained in the State's management program, the Federal agency may continue to apply its stricter standards (e.g., restrict project development or design alternatives notwithstanding permissive management program policies). In such cases the Federal agency should inform the State agency in the consistency determination of the statutory, regulatory or other basis for the application of the stricter standards.

§ 930.40 Multiple Federal agency participation.

Whenever more than one Federal agency is involved in conducting or supporting a Federal activity or its associated facilities directly affecting the coastal zone, or is involved in a group of Federal activities related to each other because of their geographic proximity, consideration should be given to the preparation of one consistency determination for all the Federal activities involved. In such cases, Federal agencies should consider joint preparation or lead agency development of the consistency determination. In either case, the consistency determination (a) must be transmitted to the State agency at least 90 days before final decisions are taken by any of the participating agencies, (b) must indicate whether or not each of the proposed activities is consistent to the maximum extent practicable with the management program, and (c) must include information on each proposed activity sufficient to support the consistency determination.

§ 930.41 State agency response.

(a) A State agency shall inform the Federal agency of its agreement or disagreement with the Federal agency's consistency determination at the earliest practicable time. If a final response has not been developed and issued within 45 days from receipt of the Federal agency notification, the State agency should at that time inform the Federal agency of the status of the matter and the basis for further delay. The Federal agency may presume State agency agreement if the State agency fails to provide a response within 45 days from receipt of the Federal agency notification.

(b) State agency agreement shall not be presumed in cases where the State agency, with the 45 day period, requests an extension of time to review the matter. Federal agencies shall approve one request for an extension period of 15 days or less. In considering whether a longer or additional extension period is appropriate, the Federal agency should consider the magnitude and complexity of the information contained in the consistency determination.

(c) Final Federal agency action may not be taken sooner than 90 days from the issuance of the consistency determination to the State agency unless both the Federal agency and the State agency agree to an alternative period (see § 930.34(b)).

§ 930.42 State agency disagreement.

(a) In the event the State agency disagrees with the Federal agency's consistency determination, the State agency shall accompany its response to the Federal agency with its reasons for the disagreement and supporting information. The State agency response must describe (1) how the proposed activity will be inconsistent with specific elements of the management program, and (2) alternative measures (if they exist) which, if adopted by the Federal agency, would allow the activity to proceed in a manner consistent to the maximum extent practicable with the management program.

(b) If the State agency's disagreement is based upon a finding that the Federal agency has failed to supply sufficient information (see § 930.39(a)), the
